Letter of Recommendation

24. Februar 2023

To whom it may concern,

I, Diana Stachowitz, member of the Bavarian State Parliament, hereby support the candidacy of the Junge Europäische Föderalist:innen Bayern e.V. to host the Federal Committee (FC) in Munich. The event will take place in spring 2024.

The Young European Federalists dedicate their time and resources for a Europe in which all cultures and interests are met with respect and democracy is the key to fair agreements. In times of crisis a strong European bond is as necessary as ever. The JEF have a vision and are willing to take responsibility for it.

As a board member of the Europa-Union Bayern I have followed the commitment of the JEF Bayern for many years and I am looking forward to a favorable outcome for the candidacy.

Yours sincerely,

Diana Stachowitz
Mitglied des Bayerischen Landtags

EUROPEAN COMMISSION
DIRECTORATE-GENERAL FOR COMMUNICATION

Representation & Communication in Member States
Berlin – Representation in Germany

Munich, 22 February 2023
COMM.DGA1.C.BE.MU/RD

Dear Madam or Sir,

I am writing to support the candidacy of Junge Europäische Föderalist:innen Bayern e.V. (JEF Bavaria) to host the upcoming JEF Federal Committee in spring 2024 in Munich.

I recently had the opportunity to meet the President of JEF Bavaria, who outlined the importance of this event, and I fully support his vision and capacity to organise the JEF Federal Committee in 2024.

In these troubled times – facing global warming and with a war on the European continent – the EU Commission's representation shares with JEF Bavaria the goal to promote European citizenship on the values of peace, democracy and the rule of law.

If the Munich candidacy is successful, we look forward to cooperating with JEF Bavaria concerning institutional presence and other support we might be able to provide.

We look forward to a favourable outcome and to welcoming you in Munich next year.

Yours faithfully,

Renke DECKARM

Application of Munich for the JEF Federal Committee 2024

Dear FC members, Dear JEFers,

It has been seven years since a German section has hosted a JEF Europe event (FC 2016 in Cologne). Therefore, we are pleased to submit our application to host FC 2024 in Munich. We are proud of JEF Germany's federal structure, and this FC is a federalist co-production, which includes the local section of Munich, the federal state section of Bavaria, and our national section, JEF Germany. This is reflected in our team, which consists of members from every part of the organization. We would be excited to welcome you all to our Bavarian capital, Munich, where we hope you will enjoy the city's rich culture and vibrant atmosphere.

Located in the heart of Europe, hosting the FC would be particularly meaningful to us. Munich is the largest section within JEF Bavaria, with over 130 members. The local section is one of the most active in Germany and is well-connected to several European stakeholders within the city. While Munich is known for its beer, Lederhosen, and Oktoberfest, the city is much more than that - it is a truly European capital. Its European spirit can be felt throughout the city, from the street names to the festivals and several sport events. For instance, the municipality hosts a "European May" with its own "European ferris wheel." Munich is a truly international city.

Enclosed with this application, you will find supporting letters from our European partners in Munich. We thank you in advance for considering Munich as the host city of the next spring FC, and we hope to see you all in 2024!

Federalist regards,

Luca Preller
President of JEF Bavaria

Lucille Maisch
President of JEF Munich

Letter of Application to Host the Spring FC 2024

Dear FC Member, dear JEFers,

It's been a very long time since we had the chance to welcome you for a Federal Committee Meeting in Germany – in Cologne to be precise. I am therefore writing to express our interest in hosting the Spring FC 2024 on the basis of the attached application package.

We would love to have you all in Munich! Not only to give you a very European glimpse of the city, but also to bring Young Federalists from all across Europe together for a vital phase of our European Election Campaign.

I believe that such an event is crucial for our campaign to be seen in the public sphere and to get the chance for directly engaging with citizens this weekend.

Hosting the Spring FC 2024 provides a unique opportunity for us to bring people together, to discuss important European issues and exchange ideas regarding our federalists future. Through such events, people can voice their opinions, express their concerns, and engage in meaningful conversations about institutional reforms – and we would be very interested to provide this kind of space.

I understand that hosting such an FC requires a great deal of planning, resources, and commitment. However, the potential benefits of hosting the Spring FC 2024 are enormous for the sections involved. It will be a real pleasure for the local and regional JEF-section to showcase the culture and diversity of the host city. I believe that we have the capacity to provide you with a pleasant weekend in Munich – in the heart of Europe!

I am convinced that the Spring FC 2024 in Munich has the potential to become a great success.

Thank you for considering our application to host the Spring FC 2024.

I will stay at your disposal for any further questions you might have!

Federalist regards,
