# INTRODUCTION TO THE JEF EUROPE 2023 CONGRESS PRE-PROGRAMS

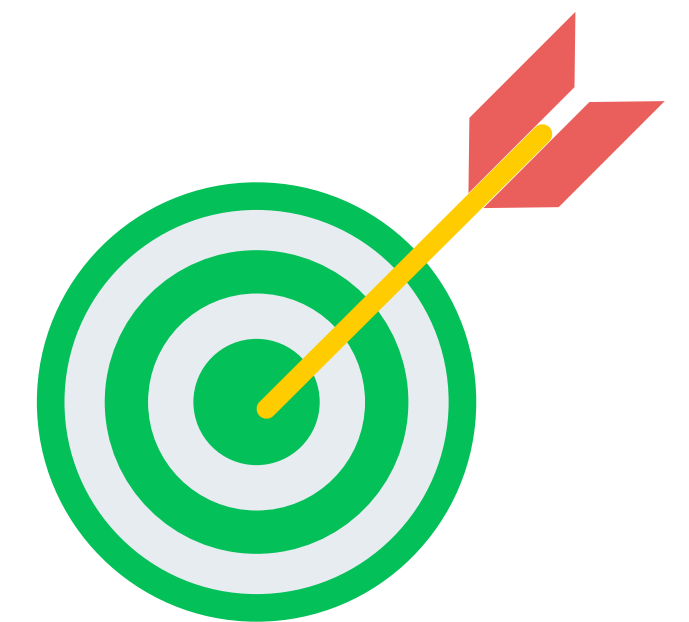

## OUR TARGET:

Making the European Congress the center piece of a series of events which will aim to promote JEF and its values along the way, while showcasing the diverse regions of our country. We want to offer two unique experiences in advance to the Congress!

For JEF Spain, it is essential to expand the effect of the JEF European Congress to other regional sections:

- **Barcelona** is the second largest city in Spain, and plays a big role in the culture and economy.
- **Toledo** is the historical capital city of Spain, full of traditions, in true european spirit and way of life
